OLYMPUS

DICTATION WORKFLOW SOFTWARE
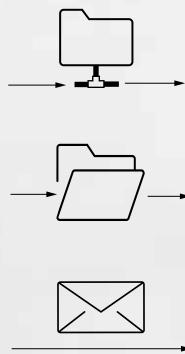

Makes your business
more efficient

ODMS R7

OLYMPUS DICTATION MANAGEMENT SYSTEM

**SIMPLE AND COLLABORATIVE
SPEECH-TO-TEXT WORKFLOW**

Quickly and easily share dictation files via email,
a shared folder or FTP.
Automatic (e.g. autor ID) and manual tagging
(e.g. priority level, work type) of dictations makes the
transcription workflow fast and secure.

CLASSIC TRANSCRIPTION

After completing your dictation, send it directly to a transcriptionist. Once transcribed, it is returned to you as a text file.

AUTOMATIC TRANSCRIPTION

In combination with ODMS and Dragon speech recognition software*, manual transcription is no longer required. The Dragon software automatically transcribes the dictation.

ADVANCED VOICE TRANSCRIPTION

When you send your file to a transcriptionist who is using ODMS in conjunction with the Dragon* speech recognition software, the dictation gets automatically transcribed. The typist just needs proofread and send back. All corrections train the user´s speech recognition profile.

*Dragon™ must be purchased and installed separately

OLYMPUS DICTATION MANAGEMENT SYSTEM

Software for easy speech documentation

KEEP TRACK OF YOUR DICTATIONS

Keep an eye on your workflow with status updates. Combined with the DS-9500, you can monitor the progress of every dictation at any time even on the mobile voice recorder. This frees your mind for other things.*

In the list view of ODMS, you can also prioritize important dictations and make your workflow transparent and effective.

*Does not apply to DS-9000   (available summer 2018)

TRANSCRIPTION WITH AS-9000

Increase the efficiency of your workflow

THE AS-9000 TRANSCRIPTION KIT IS THE PERFECT ADDITION TO YOUR VOICE RECORDER

It includes a stereo headset, a USB foot pedal with 4 configurable buttons, as well as professional and highly secure dictation management software.

ODMS Transcription module provides a seemless interface to Dragon NaturallySpeaking* and reduces time for transcription further more.
